ABOUT PLAY. LEARN. THRIVE.

Play. Learn. Thrive. provides parents with the education and tools they need to become more intentional about their children's toys and play spaces so they can foster independent and purposeful play that encourages individualized learning, problem-solving skills and perseverance.

Play. Learn. Thrive. offers a mix of expert insights and my own personal experience as a teacher and mother to three young children that can be used to create engaging play and learning spaces that work for any sized home.

ALANNA GALLO

Alanna Gallo is a teacher, mother to three young children and the founder of Play. Learn. Thrive., which provides parents with the education and tools they need to encourage purposeful play and child-led learning.

“WHAT OTHERS ARE SAYING

"Before taking the Play Learn Thrive program I would periodically go through toys the kids weren't playing with and downsize. I thought this created a clean, less stress play space. But I wasn't thinking about purposeful play and didn't really understand it. What I discovered during the process of my playroom redo was how much my kids enjoyed some of the toys I had hidden away - I went through everything in one day and my kids were happy to play by themselves with Legos and Magnatiles all day! I ended up going through the toys in the kids' rooms too and felt an emotional clog lifted once we filled an entire truck bed up with toys to donate. Pickup time is shorter and we are all happier now that the toys are more."

- SHARI STAMPS, NAVIGATING PARENTHOOD

"Alanna is super friendly and knowledgeable and has allowed me to see the reasons why my children just weren't playing! I thought it was just the personality of my eldest but in fact he was just overwhelmed by all of the stuff and it was easier to watch TV than play in the chaos! With Alanna's help I have been able to get rid of lots of toys that had little play value but I was hanging on to them 'just incase'. I kept some of our best toys in inaccessible places because they looked pretty and I worried pieces would go missing, everything is now in reach of the children and the quality and duration of imaginative play occurring now is amazing! The boys are playing together regularly and I am able to do some jobs without being disturbed every 5 seconds! Thank you."
